

TEE Specialists' 2009 study guides are written specifically for Year 12 Western Australian students. Each book is of superior quality, set apart from others by providing the most relevant and up-to-date information. With a unique insight into what examiners are looking for in each subject, students will gain a definite "edge" over the standard, theoretical guides commonly available. Please take advantage of this great opportunity, and ensure that you are in the best position to tackle the crucial months ahead.
